## **Mendelssohn A Neighborhood Roadway Reconstruction**

Dear Resident:

The following is a quick update of the project in your neighborhood:

### **Neighborhood Reconstruction Schedule**

Sump drain pipe installation is under way in the neighborhood. The contractor has started drilling the sump drain mainlines on Maloney Avenue, Kresse Circle and John Street.

According to City Code, all residents with sump pumps and roof drains who discharge at the curb or within the right-of-way should use this service pipe. Please call or email me if you have any questions.

During installation, the pipe is laid along the ground and it may temporarily block access to your driveway. If this affects you and you need to leave your home, let the contractor know and they will accomodate. Please use caution when driving or walking near the pipes.

### **Communications**

For more information about emergencies, non-emergencies and site safety, visit [www.edinamn.gov/construction\\_mendelssohn\\_reconstruction](http://www.edinamn.gov/construction_mendelssohn_reconstruction).

Please contact me if you have any questions or comments, or if you have special events or home improvement projects planned. You can reach me at 952-826-0448 or [JFrahm@EdinaMN.gov](mailto:JFrahm@EdinaMN.gov).

Please encourage your neighbors to sign up for City Extra emails, as this will be our primary method of communication once the project begins.

The City of Edina and Palda & Sons thank you in advance for your patience and cooperation throughout the project.

Regards,

Jeff Frahm  
Engineering Technician
